

Silent Gliss 5090 Autoglide

Electric Curtain Track System  
Silent Gliss 5090 Autoglide

Ideal for extra security, ease of operation or just a simple touch of luxury.

Wherever you are, whatever you are doing, you can rely on our Electric Curtain Track System Silent Gliss 5090 Autoglide, the made-to-measure powered curtain system from Silent Gliss, to operate your curtains automatically.

For 50 years Silent Gliss has led the market for automated window treatments. The aluminium track and belt technology combines a touch of true luxury with an excellent deterrent to intruders. With Silent Gliss 5090 let your curtains look after themselves – and your home.

Silent Gliss 5090 is available with three optional upgrades – each supporting a maximum curtain track width of 5m and maximum curtain weight of 15kg.

## Options

### **Basic Operating Method – Silent Gliss 5090**

The standard operating method lets you control the system Silent Gliss 5090 at the touch of a button.

### **Option 1 – Silent Gliss 5090IR**

For the ultimate in ease of operation choose the 5090IR which includes a remote control handset allowing you to operate the curtains from the comfort of your seat.

### **Option 2 – Silent Gliss 5090TL**

This option includes a simple Timer Unit allowing you to select specific opening and closing times, giving you increased control. Programming the timer is incredibly simple. A window in the unit shows the time and the buttons on the side allow simple setting of the desired opening and closing times of the curtains. Also included is a dawn to dusk sensor which can be set to open and close the curtains according to levels of daylight. Either program can be overridden at anytime and the curtains can be manually operated using the open and close buttons on the Timer Unit or fixed wall switch.

### **Option 3 – Silent Gliss 5090TC**

The Total Control (TC) option includes our Timer Unit in combination with the Remote Control giving you ultimate choice of control methods over your system.

## Motor specifications

- Voltage: 24V
- Current: 1.5A
- Current overload protection
- CE/IECEE Standard
